Work experience

COMPANIAL, VILNIUS

2025.07 – 2025.08

Microsoft Dynamics F&SCM Developer internship

- Developed and maintained solutions within **Microsoft Dynamics 365 F&SCM** platform using **X++** and **.NET** related technologies.
- Assisted in designing and implementing business logic enhancements and workflows aligned with **ERP** system requirements.

COGNIZANT LITHUANIA, VILNIUS

2024.03 – 2024.05

Full-stack application development internship

- Built a responsive, modular apartment booking UI using **React.js**, **TypeScript**, and **TailwindCSS**.
- Designed and deployed robust **RESTful** endpoints using **Spring Boot** and **PostgreSQL** to manage user accounts and reservation lifecycles.
- Containerized application components using **Docker** and integrated them into a automated **CI/CD** pipeline to streamline deployment.

ACCENTURE BALTICS, VILNIUS

2023.07 – 2023.09

Full-stack application development internship

- Developed **RESTful** backend services for a movie search application using **Java**, **Spring**, and **Jakarta**.
- Authored clean, semantic front-end code using vanilla **JavaScript**, **HTML**, and **CSS**.
- Participated in a **CTF** hackathon focused on web security and applied common vulnerability exploitation techniques in practical challenges.

Skills

- Communication: **English (C1)**, **Lithuanian (native)**
- Languages: **Java**, **C#**, **JavaScript/TypeScript**, **SQL**, **PHP**, **Bash**, **X++**
- Frameworks: **Spring Boot**, **React.js**, **Vue.js**, **Astro**, **.NET**
- Tools: **Docker**, **Git**, **GitHub**, **GitLab**, **Jenkins**, **Linux**, **Maven**, **Gradle**

Education

VILNIUS GEDIMINAS TECHNICAL UNIVERSITY

2027.07 (Expected)

Bachelor's degree in Software Engineering

About me. I am a software engineering student with hands-on experience building backend systems, as well as full-stack web applications. I enjoy working across the stack, developing reliable, maintainable software systems. Being passionate about software architecture, clean code, and modern CI/CD workflows, I am eager to apply my experience to various challenges in the future.
